

h indian hills water district

Newsletter March 2017

Weather Conditions

Let's all hope for a continued wet spring and summer to make up for the dry winter and avoid dreaded water restrictions.

If you are planning to do any outside planting this year, consider planting flowers, shrubs, grasses, and trees that are native and/or drought tolerant.

Arrowhead Park

Park property owners are looking for ideas to improve park facilities. What would you like to see there?

Please contact the district office or Tim Wilson at Indian Hills Christian Fellowship 303-697-4757 with any comments.

**Contact the Water District immediately
in case of a water leak.**

Meter Readings

Meter readings can now be submitted on the Customer Portal. Look for Messages which is the first choice above the payment options.

As always, readings can also be submitted with check payment, by phone 303-697-8810, on bank bill pay check in memo, email office@indianhillswater.com, or text at 303-941-7780.

System Inventory

We are updating our records - please fill out the attached Individual Water Account Inventory form and return it to the district in April.

Our water rights only allow for a limited amount of outside watering of lawns and gardens. We are collecting this information to confirm that we stay within our allowed amounts.

Thank in advance for your help with the inventory.

Drop Box at MacNation

Only 1 or 2 people were using the drop box at the restaurant so we decided to remove it. We apologize for any inconvenience.
